Could you be a Junior Warden?

CHICHESTER DISTRICT
**Community
Wardens**

As a Junior Warden you can help to make your community and neighbourhood a safer place to live and play in

You will be working together with your local Community Wardens to find ways to improve the area where you live. You must be in Year 5 and have your parents' approval

What sort of things do Junior Wardens do?

Junior Wardens can share their ideas with the Community Wardens. We want to listen to your ideas and use them where we can.

We will work on recycling projects and become involved with things like litter picking and reporting environmental problems.

You could even help organise your own event with support from the Community Wardens.

You will be able to report things you've seen on the estates such as graffiti, dumped furniture and rubbish. You can really help make your area one of the best places to live.

We will help others in the community by doing simple things like clearing weeds and planting new plants.

What's in it for you?

Junior Wardens who regularly take part in events and activities will earn rewards for their hard work - including trips to events, visits and other recognition.

You can earn the chance to wear a uniform and promote your community.

You will learn new skills and meet new friends.
